Welcome to The Riverside Museum

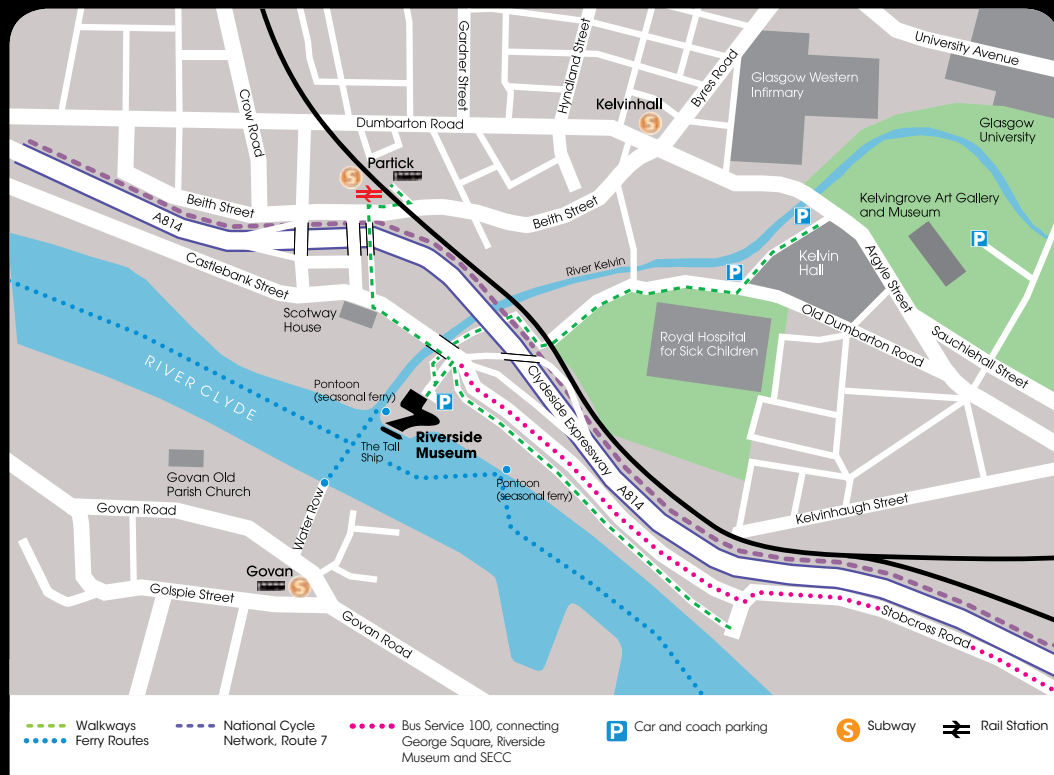

Our collections are spread over 2 floors, with over 150 separate, themed displays featuring over 3000 objects. With high tech and hands-on interactives, digital interpretation, daily activities and access to some vehicles, there is something for everyone.

We want your visit to be as enjoyable as possible, so if you have any queries, please ask a member of staff. If you don't want to keep this floorplan, please hand it back at the Reception Desk — help us to stay green!
